

Biohazard Signs and Labels

For Biosafety Level 2 through 4 a Biohazard sign must be posted prominently at entrances to laboratories working with biohazardous materials and at entrances to a tissue culture laboratory.

These signs display the [international biohazard symbol](#) and the legend "BIOHAZARD" or "BIOHAZARDOUS MATERIALS", the biosafety level, the location, the Principal Investigator name(s) and contact information.

Equipment used to store biohazardous materials (e.g. incubators, refrigerators, freezers) and receptacles for storage of biohazardous waste must also be labeled.

These signs and labels are available through the FSU Biological Safety Office which can be reached at 644-5374 or 644-9117.
