VII. Statement of responsibility

As the Principal Investigator for this project, I have the responsibility to assure that the animal by-product collection is operated in a safe manner and that all staff and students are informed of potential risk(s), wear appropriate personal protective equipment, and are adequately trained. I will assure that all students and staff will receive orientation for safe handling of the animal by-product and emergency instructions.

I understand that I am responsible for assuring that the animal by-product collection is within all federal, state, and local environmental laws and regulations and adhering to Florida State University policies.

Additionally, I am responsible for and will report any significant problems and/or significant accidents and illnesses to EH&S, and will complete required forms in the event of an incident or injury.

I further understand that I must complete an updated form and obtain approval prior to instituting any changes in my animal by-product collection.
